Subject: Building Codes on Elevation

To whom it may concern,

My name is Jasmin Garcia. I am part of The Bob Graham Academy for Citizenship Studies and Public Service. We are studying local problems, how they are dealt with by government, and how citizens themselves can participate in their government.

We are conducting research on coastal flooding in the state of Florida due to sea level rise, particularly Sunny Day Flooding. I feel that you may have valuable knowledge regarding this issue by how the building codes of elevation of new homes helps with this issue.

We are considering raising floor elevations to prevent flooding in coastal area and we are interested in knowing what the current elevation requirement is on new homes.

Do you have any printed information on the problem that you can send us? If yes, please send to 7700 NW 163rd street Miami Lakes, FL 33016.

If there is someone else that you feel could help us gather information regarding our issue, please feel free to forward this email.

Your input is greatly appreciated.

Thank you in advance for your attention to this matter.

Sincerely,

Jasmin Garcia
