RESOLUTION NO. 09-87

ZONING APPLICATION [VPB-09-003]

A RESOLUTION OF THE MAYOR AND VILLAGE COUNCIL OF THE VILLAGE OF PALMETTO BAY, FLORIDA, RELATING TO ZONING; APPROVING THE APPLICATION OF HAYDEE SANCHEZ FOR A NON-USE VARIANCE OF SETBACK REQUIREMENTS UNDER ORDINANCE 09-03 THE VILLAGE'S SHED AMNESTY ORDINANCE; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the applicant made applications for a non-use variance of the setback requirements, as described in the Village's Department of Planning and Zoning Recommendation, which is attached to this resolution; and,

WHEREAS, the Village Council of the Village of Palmetto Bay conducted a quasi-judicial hearing on the application at the Deering Estate Visitor Center on October 14, 2009; and,

WHEREAS, the Mayor and Village Council finds, based on substantial competent evidence in the record, that the application for a non-use variance under Ordinance 09-03 The Village's Shed Amnesty Program is consistent with the Miami-Dade County Comprehensive Plan and the applicable land development regulations; and,

WHEREAS, based on the foregoing finding, the Mayor and Village Council determined to grant the applications, as provided in this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND VILLAGE COUNCIL OF THE VILLAGE OF PALMETTO BAY, FLORIDA, AS FOLLOWS:

Section 1. A hearing on the present applications was held on October 14, 2009, in accordance with the Village's enacted "Quasi-judicial hearing procedures." Pursuant to the hearing, the Village Council makes the following findings of fact, conclusions of law and order.

Section 2. Findings of fact.

36 The Applicant, Haydee Sanchez sought a non-use variance of the property located at 8825 SW 178th
37 Terrace, Palmetto Bay, Florida. Pursuant to Sections 33-311(4)(b) and (c), Miami-Dade County
38 Code, sought a non-use variance of setback requirements to allow an existing shed (19.06' x 9.80'/
39 187 sq. ft.) to have a setback of 5' where 7.5' is required from the (north) rear property line on a
40 property zoned E-M. As shed size exceeds administrative shed variance criteria, the applicant must
41 adhere to the variance process.

42
43 On February 2, 2009, the Village Council, pursuant to Ordinance Number 09-03 (known as "the
44 Shed Amnesty Ordinance"), provided for an 18 month shed amnesty program that would allow
45 existing nonconforming sheds to be permitted provided certain conditions are met. The Village

1 Council recognized that many of the nonconforming sheds were built on residential properties
2 without permits; and many of the sheds had been built after Hurricane Andrew or other hurricane
3 events in an effort to secure construction materials and personal property due to residential damage
4 caused by the events. In addition, the Village Council acknowledged that they could not determine
5 whether the sheds were built due to the aftermath of Hurricane Andrew or other hurricane events
6 that occurred over the past 17 years.

7
8 Pursuant to Ordinance Number 09-03, property owners could seek a simplified after-the-fact permit
9 for sheds under two circumstances:

- 10 1. Sheds under 150 sq. ft. and more than 3' from the property line could obtain an
11 administrative shed variance; or
- 12 2. Shed over 150 sq. ft. +/- and less than 3' from the property line the applicant can seek a
13 variance.
14

15
16 The shed moratorium ordinance facilitates the legalization and permitting of the non-conforming
17 sheds to ensure that they comply with the Florida Building Code. The current applicants wish to
18 participate in the amnesty program and bring the existing nonconforming shed into compliance.
19

20 The applicant is seeking to participate in the amnesty program and bring the existing nonconforming
21 shed into compliance. The shed is located in the rear center of the property 5' from the (north)
22 property line where 7.5' is required. The properties immediately to the north, east, south and west
23 are surrounded by single-family homes. This area is zoned by the Village as E-M. The shed does
24 not qualify for the shed administrative variance process as it exceeds 150 sq. ft. in size.
25

26 The variance request, pursuant to Section 33-311(A)(4)(b), Miami-Dade County Code, was found to
27 be consistent with the existing development pattern surrounding the area. In addition, the area is
28 also compatible with the surrounding zoning and land use regulations. Since there is no actual
29 hardship, the criteria of the alternative non-use variance provisions of Section 33-311(A)(4)(c),
30 Miami-Dade County Code, were found not to have been met.
31

32 The adopted 2005 Village of Palmetto Bay Comprehensive Plan and Future Land Use Map,
33 designates the site as Estate Density Residential. (Less than 2.5 dwelling units (D.U.) per gross acre).
34 Neighborhood services would not be impacted by this application. This structure was constructed in
35 violation of required setbacks. The variance, if granted, would bring the structure into code
36 compliance.
37

38 In evaluating the application for a Non-Use Variance of Setback Regulations, the Village Council
39 took into consideration the requirements set forth in Section 33-311(A)(4)(b) Non-Use Variance
40 Standard, or the alternative Section 33-311 (A)(4)(c) Alternative Non-Use Variance Standard, of the
41 Miami-Dade County Code. The non-use variance standard requirements in Section 33-311
42 (A)(4)(b), Miami-Dade County Code, indicates that upon appeal or direct application in specific
43 cases to hear and grant applications for non-use variances from the terms of the zoning and
44 subdivision regulations, the Council (following a public hearing) may grant a non-use variance upon
45 demonstration by the applicant that the non-use variance request maintains the basic intent and
46 purpose of the zoning, subdivision and other land use regulations, which is to protect the general

1 welfare of the public, particularly as it affects the stability and appearance of the community and
2 provided that the variance will be otherwise compatible with the surrounding land uses and would
3 not be detrimental to the community. No showing of unnecessary hardship to the land is required.
4 For the purpose of this subsection of the Code, the term "non-use variance" involves matters such
5 as setback lines, frontage requirements, subdivision regulations, height limitations, lot size
6 restrictions, yard requirements, and other variances which have no relation to change of use of the
7 property in question.

8
9 The alternative non-use variance standard in Section 33-311(A)(4)(c), Miami-Dade County Code,
10 requires that the variance will not be contrary to the public interest, where owing to special
11 conditions, a literal enforcement of the provisions thereof will result in unnecessary hardship, and so
12 the spirit of the regulations shall be observed and substantial justice done; provided, that the non-
13 use variance will be in harmony with the general purpose and intent of the regulation, and that the
14 same is the minimum non-use variance that will permit the reasonable use of the premises.

15
16 After being sworn in, Planning & Zoning Director Julian Perez presented the recommendation of
17 staff to support the application and outlined the criteria used. Mr. Perez explained that he provided
18 individual notice to the neighbors of each application for amnesty under Ordinance 09-03. That
19 additional notice, beyond the notice required under the Village's Code of Ordinances was made a
20 part of the underlying record. Mr. Perez explained that the intent of Shed Amnesty process was to
21 establish an unbiased evaluation of each application consistent with the requirements set forth in
22 Village Ordinance No. 09-03. The application and field information were used by staff to determine
23 whether the applicant met both primary and secondary requirements. The summary of the
24 minimum requirements applied by staff are as follows: (1) Primary minimum requirements, include:
25 the applicant's location of the shed, and the ability to have enough space (minimum 1.5') between
26 the shed and property line in order to provide sufficient landscaping to screen the shed from public
27 view and from adjacent property owner's view; and (2) Secondary minimum requirements, which
28 include: the provision of a wooden fence at least 6' tall; sufficient landscaping provided by adjacent
29 property owner in the general area where the shed is located; adjacent principal structure and
30 auxiliary uses are 20' or more feet away from the shed; no opposition from the adjacent neighbor(s);
31 and the existing size and condition of the shed. An adjacent resident issued a letter recommending
32 approval of the shed variance application. There were no opponents to the application.

33
34 The public hearing was then opened. The applicant spoke. The Village Council deliberated and
35 discussed the concern of extending the use beyond the life of the existing structure and conditioned
36 the approval upon the elimination of the variance upon destruction of the structure by 50 percent or
37 more, as further delineated below.

38
39 Section 3. Conclusions of law.

40
41 The Mayor and Village Council determined that the existing shed is in keeping with the basic intent
42 and purpose of the zoning and land use regulations. Approval of the application is in character with
43 the existing use of the property, and is consistent with the Village's Comprehensive Plan. The
44 application is approved pursuant to Section 33-311(A)(4)(b), and denied under Section 33-
45 311(A)(4)(c).

1 Section 4. Order.

2 Pursuant to Section 33-311(A)(4)(b), Miami-Dade County Code, The Mayor and Village Council
3 approve the application as represented under the survey entitled Haydee Sanchez, 8825 SW 178th
4 Terrace, Palmetto Bay, FL 33157, as prepared by Nova Surveyor's, Inc., consisting of one (1) sheet,
5 dated stamped received April 22, 2009, with the following conditions:
6

7 1. The applicant is to comply with the requirements of all other applicable
8 departments/agencies as part of the Village of Palmetto Bay building permit submittal process and
9 all relevant state and local code requirements.

10
11 2. The applicant is to comply with the landscape screening requirements and all the
12 requirements imposed by the Village of Palmetto Bay under Ordinance Number 09-03 (Shed
13 Amnesty Ordinance).

14
15 3. Consistent with the Florida Building Code, should the structure be damaged or destroyed
16 beyond 50% ["Level Three" demolition of existing residential buildings as defined under the Florida
17 Building Code at Section 405.1, -- exceeds 50 percent of the aggregate area of the building within
18 any 12 month period], that the variance for the existing shed shall be abandoned, and the structure
19 removed.
20

21 The Applicant consented on the record to the conditions placed on the approval of the
22 variance application.
23

24 Section 5. Record.

25 The record shall consist of the notice of hearing, the applications, documents submitted by
26 the applicant and the applicant's representatives to the Village's Department of Planning and Zoning
27 in connection with the applications, the county recommendation and attached cover sheet and
28 documents, the testimony of sworn witnesses and documents presented at the quasi-judicial hearing,
29 and the tape and minutes of the hearing. The record shall be maintained by the Village Clerk.
30

31 Section 6. This resolution shall take effect immediately upon approval.
32

33 PASSED and ADOPTED this 14th day of October, 2009.
