**Philosophy:**

Public Art is for everyone. It is the heart and soul of the community. It serves to bring fine arts to a community as a reflection of that community, its progressiveness, and the diversity of its people. It has the capability of defining space and giving character and identity to the community and community spaces. It is an investment in the arts and culture of a community and its future. It is also a legacy to a community's citizens and children.

Dear Mr. Nunez,

I am requesting consideration for placement on your Art in Public Places Advisory Board. I have a strong background in the public process and for working with artists not to mention the strong desire to serve the community and to assist in making it a more wonderful and beautiful place to live and raise a family. I also have my master's degree in Community Art Education.

I am still somewhat new to the Miami area, however, I am firmly planted here as my husband and his whole family have lived in Palmetto Bay for over 32 years. We love this community and are excited about raising our son here. I want him to have a strong sense of place and pride in his community on all levels.

Now, I want to do my part as a citizen and contribute my skills, interests, and dedication by serving on your board. Please consider me for service and inform me if I need to provide you with any other information that might be helpful in your decision making process.

Thank you for your consideration,

Dana Pezoldt, MA
