## South Corridor Rapid Transit Project Public Kick-Off Meeting

Wednesday, May 31, 2017

Please use  
same 4  
pictures from  
Fact Sheet

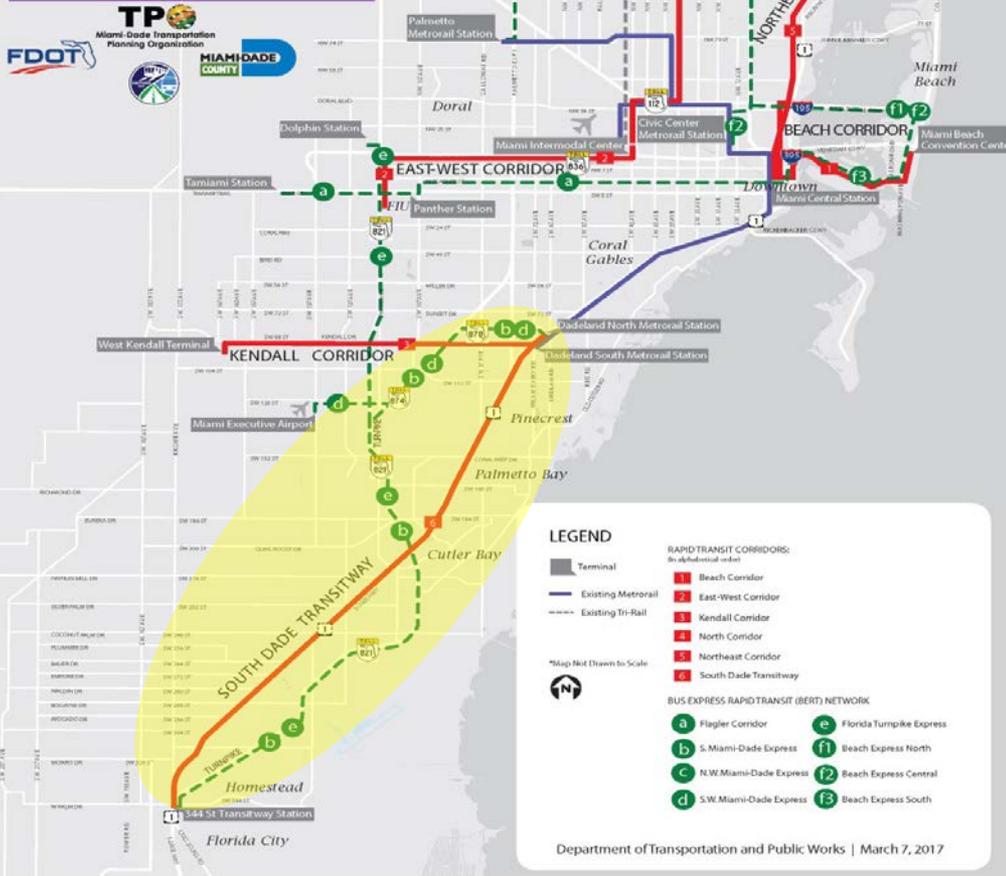

# Meeting Overview

- Miami-Dade County SMART Plan
- South Corridor
- Project History and Timeline
- South Corridor History
- Transitway Existing Conditions
- Study Elements
- Project Scope and Purpose
- Existing Transit Facilities
- Project Schedule
- Study Objectives: Evaluate Transit Alternatives
- Technologies
- Public Involvement
- Locally Preferred Alternative

# Miami-Dade County SMART Plan

## Strategic Miami Area Rapid Transit (SMART) Plan

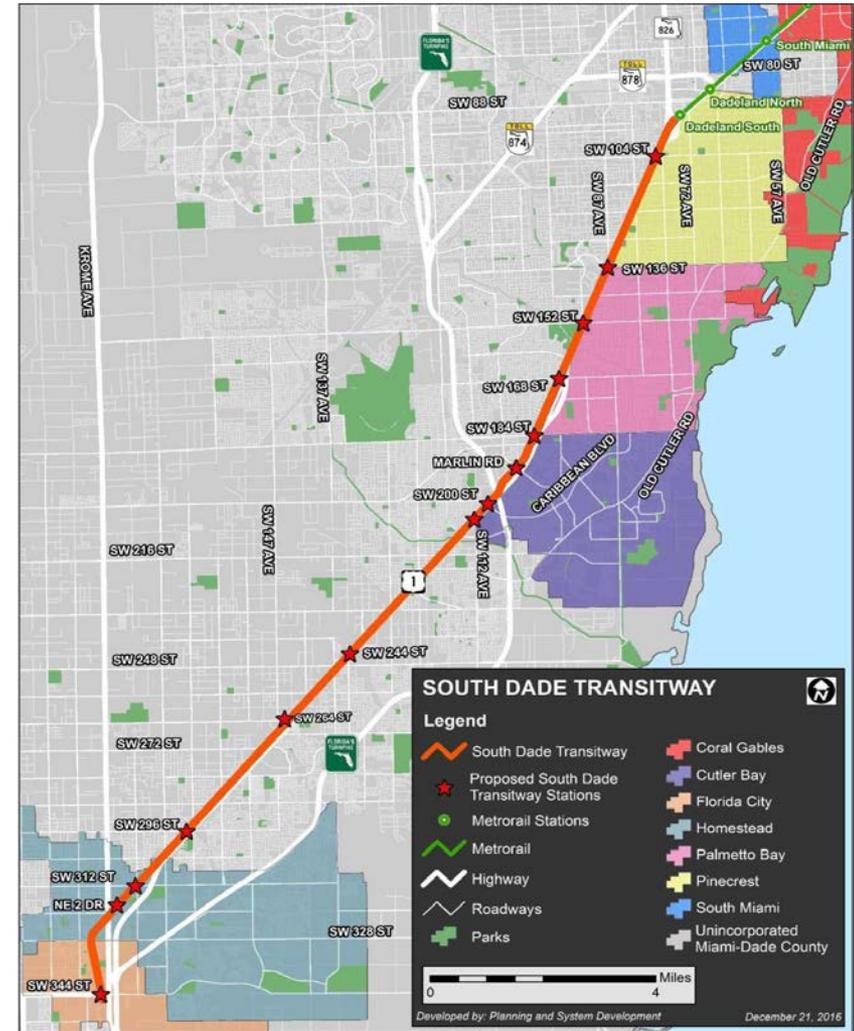

Six Corridors (in alphabetical order):

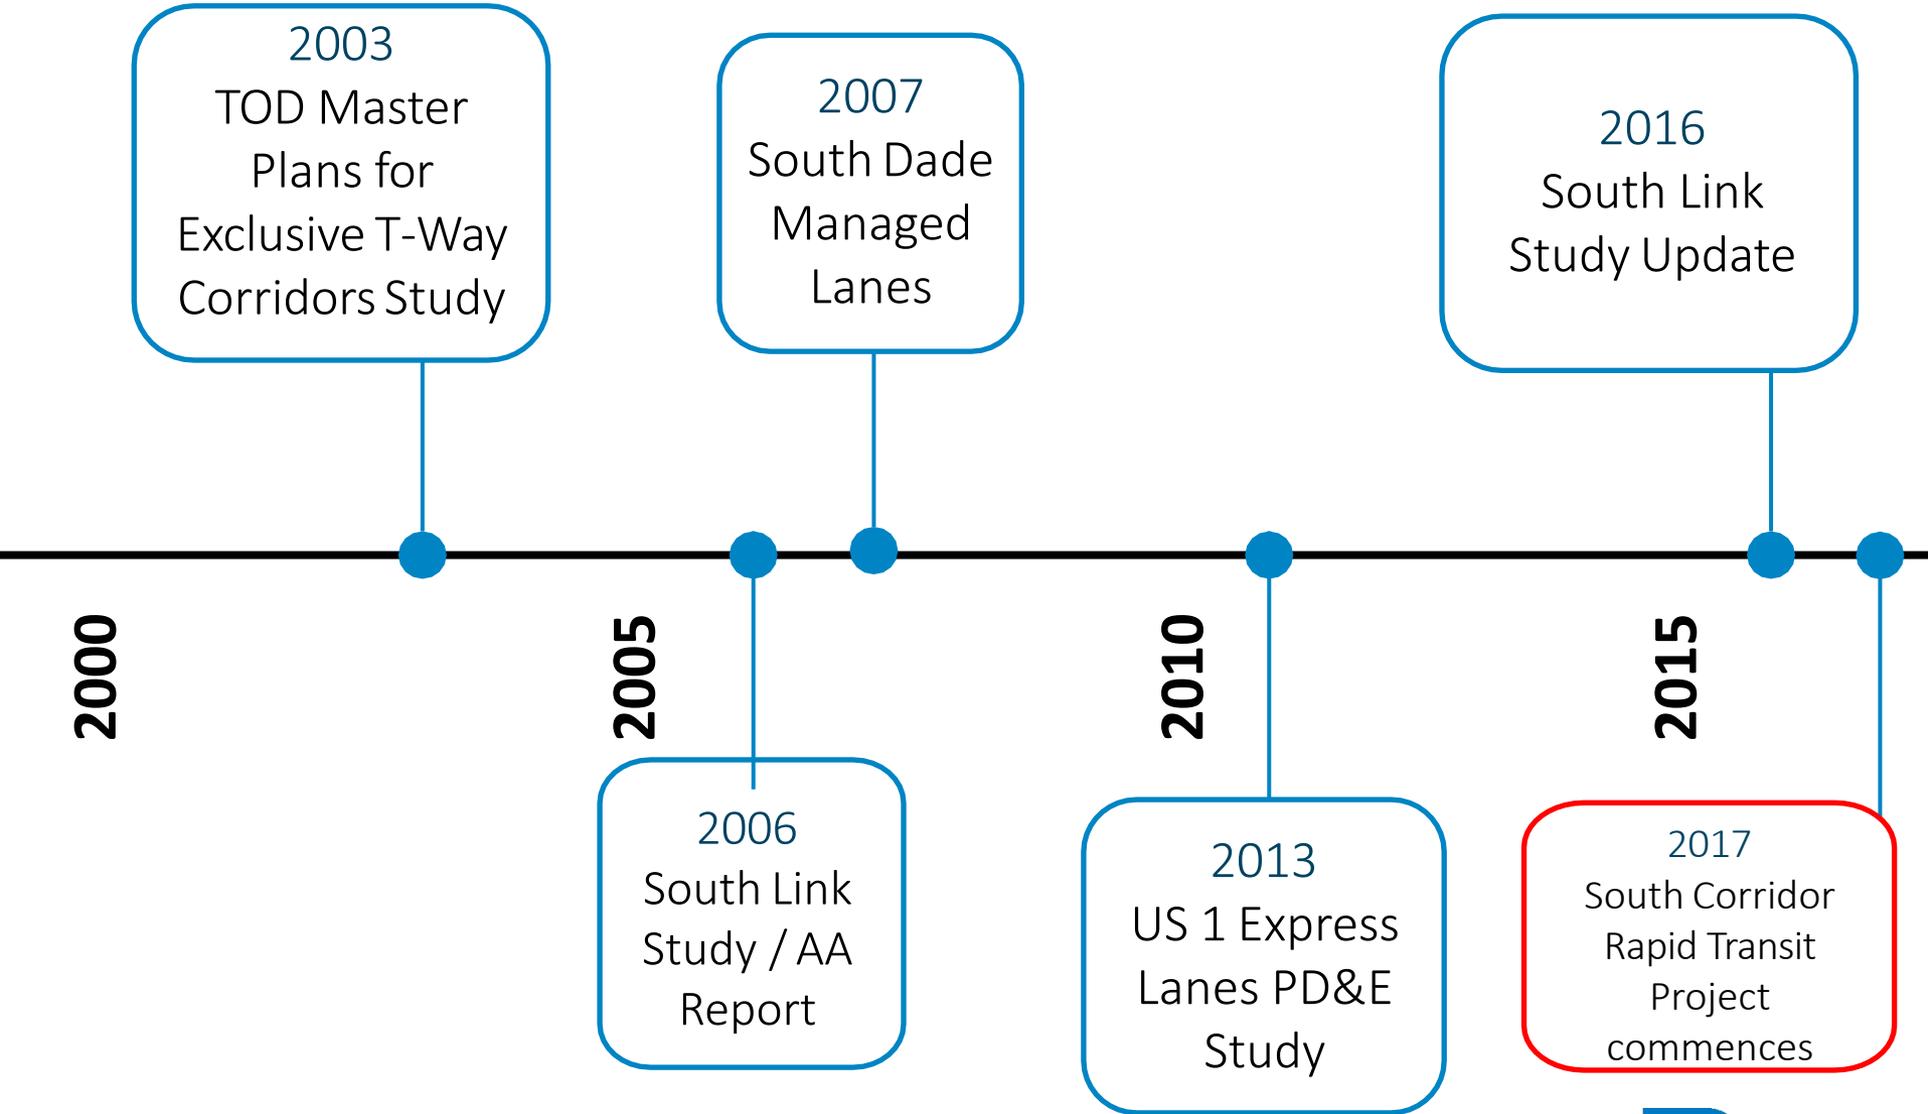

- Beach Corridor
- East-West Corridor
- Kendall Corridor
- North Corridor
- Northeast Corridor
- **South Corridor**

# South Corridor

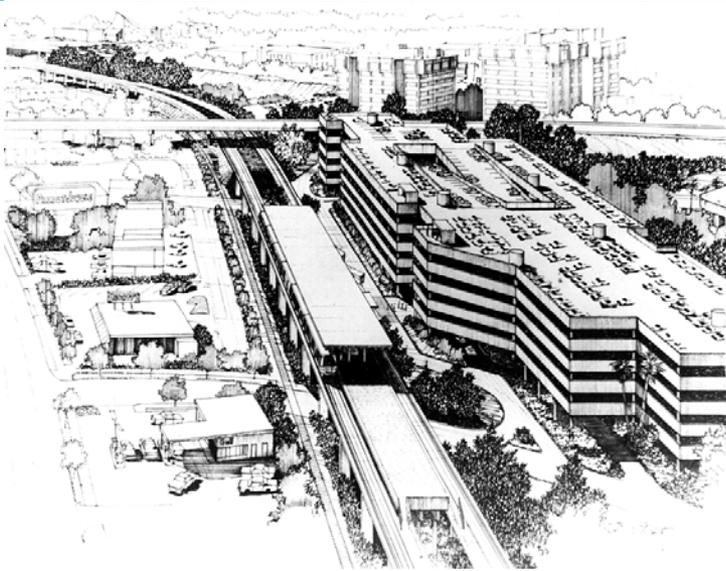

- Existing South Dade Transitway:  
Connects Dadeland South Metrorail Station with SW 344<sup>th</sup> Street in Florida City (approximately 20 miles)
- Corridor Cities
  - Village of Pinecrest
  - Village of Palmetto Bay
  - Town of Cutler Bay
  - City of Homestead
  - City of Florida City

# Project History and Timeline

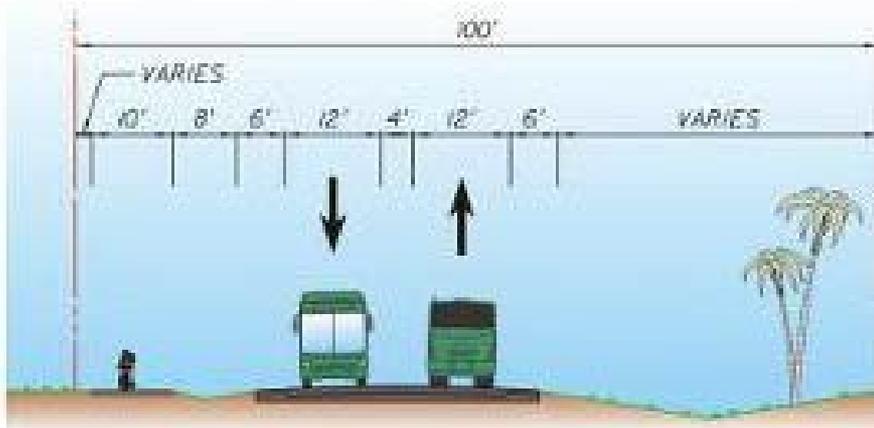

# South Corridor History

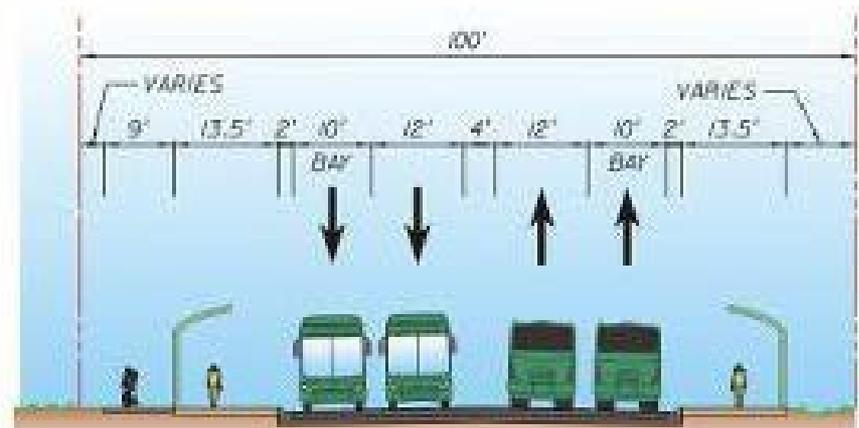

# Transitway Existing Conditions

- Mostly 100-foot wide right-of-way for its entire length
- Designed for transit buses and emergency/law enforcement vehicles
- One 12-foot wide bus lane per direction with 30 stations
- 8-10 foot wide bicycle/pedestrian path along the west side, separated from bus lanes by a swale
- Adjacent to US-1

Typical Roadway Section

Typical Station Section

# Study Elements

## Public Involvement

Continuous outreach and coordination with community and stakeholders

## Data Collection

Review of existing conditions

## Engineering Analysis

Develop and evaluate alternatives that meet the goals of the project

## Environmental Evaluations

Identify potential impacts to social, natural, and physical environments

## Project Scope

- Document Existing Conditions
- Develop Transit Mode Alternatives using Existing Transitway Alignment
- Station Stop Locations and Transit Terminals
- Multimodal Connections

## Project Purpose

- Improve Mobility
- Promote Connectivity
- Enhance Accessibility
- Stimulate Economic Development

# Existing Transit Facilities

# Project Schedule

# Study Objectives: Evaluate Transit Alternatives

- At-Grade Heavy Rail Transit (HRT)/Metrorail Extension with grade separations at major intersections
- At-Grade BRT using the existing Transitway with grade separations at major intersections
- At-Grade Light Rail Transit (LRT) with grade separations at major intersections
- Autonomous Vehicle (AV) alternative with grade separations at major

# Technologies

## Heavy Rail Transit (HRT)/Metrorail Extension

## Bus Rapid Transit (BRT)

## Light Rail Transit (LRT)

## Autonomous Vehicle

# Examples: At-Grade Metrorail Rapid Transit

## Chicago CTA Brown Line

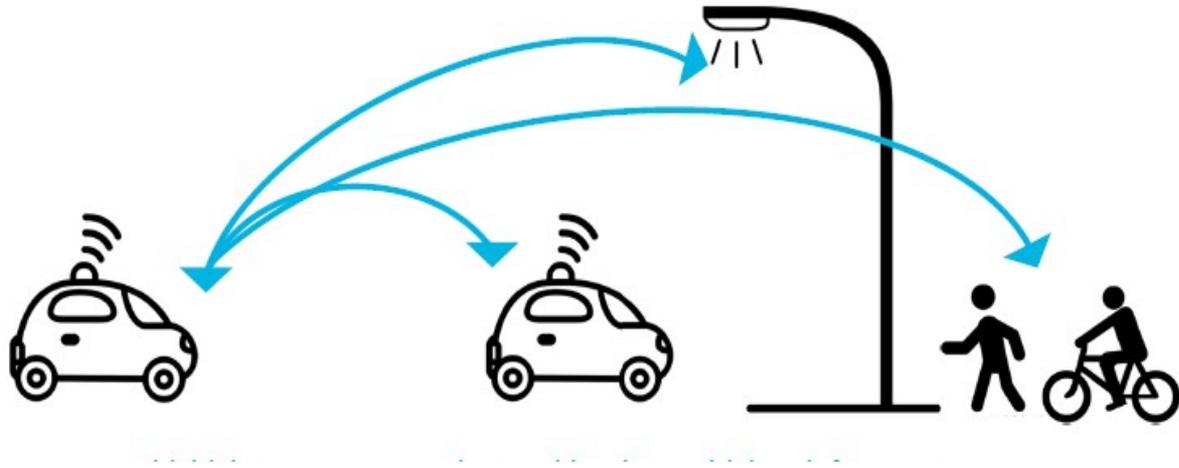

## Boston MBTA Blue Line

# Examples: At-Grade Bus Rapid Transit

# Examples: At-Grade Light Rail Rapid Transit

# Examples: Autonomous Vehicle Technology

# Public Involvement

- Elected Officials and Agency Kick-Off Meeting
- Public Kick-Off Meeting
  - Outreach
    - Property Owner Notices
    - Advertisements (Miami Herald and El Nuevo Herald)
    - Meeting Notice Distribution
      - Metrorail Stations
      - Park-and-Ride Facilities
      - Public Facilities (18 locations)
- DTPW Social Media and Municipal Networks
- Unscheduled Meetings
- Fact Sheets (English and Spanish)
- Public Informational Workshops - Fall 2017
- Project Website

# Locally Preferred Alternative

## Purpose and Need

- Identify the need for transit investment
- Determine project goals and objectives
- Define evaluation criteria

## Tier 1 Definition and Evaluation: Qualitative

- Identify the universe of alternatives
- Qualitative evaluation to determine feasibility

## Tier 2 Definition and Evaluation: Quantitative

- Define the remaining alternatives in detail:
  - Develop operating plan
  - Generate ridership forecast
  - Estimate capital and O&M costs
- Evaluate the alternatives in detail

## Selection of Locally Preferred Alternative (LPA)

## Q&A

# Project Team

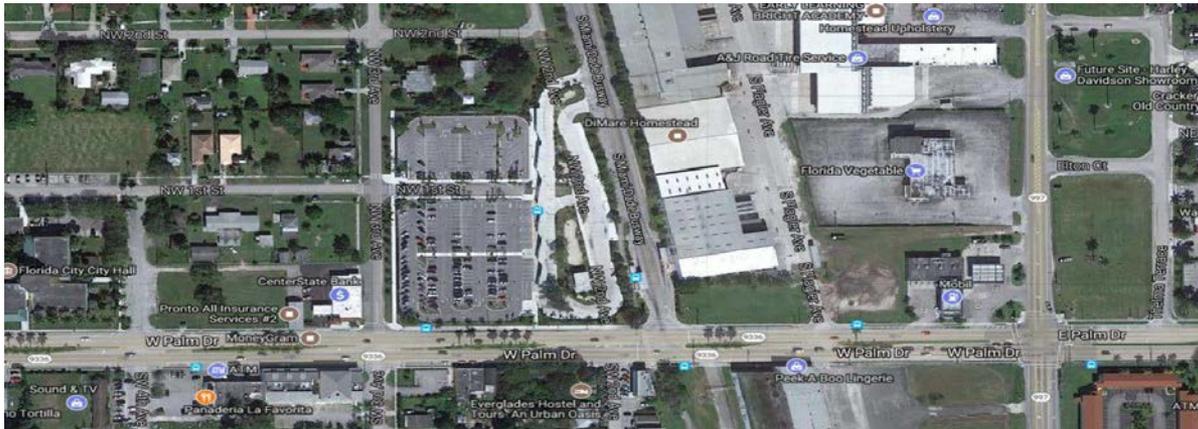

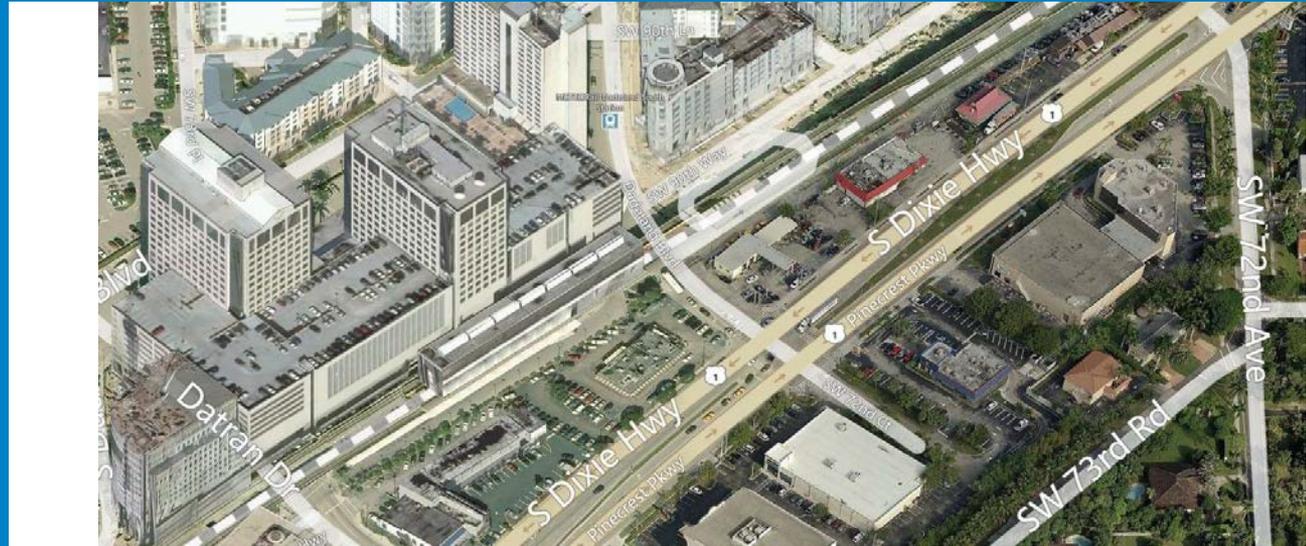

DTPW Project Manager Jie Bian  
(786) 469-5245  
jie.bian@miamidade.gov

John Kulpa  
Consultant Project Manager  
AECOM  
(786) 682-4962  
john.kulpa@aecom.com

DTPW Public Information Officer Karla Damian  
(786) 469-5420  
kdamian@miamidade.gov

# North Terminus and Southern Terminus

Northern Terminus:  
Dadeland South  
Metrorail

Southern Terminus:  
SW 344<sup>th</sup> St.
