I. BUDGET DETAIL:

Using the definitions provided below, the detailed, line-item budget clarifies the Budget Summary shown in Section G. Budget Category Sub-Totals have been rounded to the nearest whole dollar value. Up to 10% of grant funds may be used for administrative costs, excluding the cost of meeting reporting requirements of the program. Administrative costs are defined as: allowable, reasonable, and allocable Direct and Indirect costs related to overall management of the awarded grant (including travel). For each budget line-item, the appropriate column identifies if the cost is: 1) Grant or Match, 2) a Direct cost used to calculate Indirect Costs (if approved) and 3) whether the cost is Administrative in nature. A description of what is required for each budget category is as follows:

1. Salaries – Identify the persons to be compensated for work on this project by name (if known), position, and title. Show the hourly cost and total hours to be charged for each person or position. Divide annual salaries by 2080 hours and nine month academic salaries by 1560 hours, to find the hourly rate.
2. Fringe Benefits – Multiply the rate by the total salaries to which fringe benefits apply. If the rate is variable, explain and show calculations.
3. Travel – List trips by their purpose and/or destination. Indicate the number of days for each trip. The Department will only reimburse for travel at the appropriate State of Florida rate (Section 112.061, Florida Statutes), using the forms referenced in Payment Packet Summary Form. Be prepared to provide the Department with details on costs utilized to calculate the “Amount Budgeted” for each trip.
4. Supplies & Other Expenses – List expendable supplies by category description, unit costs and quantity. List other expenses not included in any of the above categories. Examples would be printing, copying, postage, communications, etc. Non-expendable equipment valued at less than \$1,000 may be listed also. Include only expenses directly related to the project, not expenses of a general nature. For Match only, list costs related to donated real property such as land (not to exceed the fair market value of the property).
5. Equipment – List non-expendable personal property/equipment valued at \$1,000 or more by description, unit cost, and quantity. Computers and data-processing equipment should be described in detail.
6. Contractual Services – Subcontractors should provide the same information required by this budget table, with the following exceptions: (a) when professional services are provided at a pre-existing approved rate or fee shown on the budget; or (b) the subcontract is to be obtained competitively. For either (a) or (b), show an estimated maximum amount.
7. Total Budget Category – Show the total of all line-items within a Budget Category.
8. Total Budget – Show the total of all categories.

J. MEASURES OF SUCCESS:

The disbursement of cost-share funds under this Agreement is contingent on the solicitation and participation of eligible recipients during the Agreement period. The number of recipients participating and energy efficiency measures funded will vary according to interest, need, and timing of implementation. Therefore, it is not possible to set a minimum standard for the number of recipients, energy efficiency measures implemented, or amount of funds to be disbursed within the Agreement period. The Agreement amount is based on a preliminary assessment of need, but the funds allocated may be less or more than the need anticipated. In addition, this Agreement provides only an administrative fee to the Subrecipient to cover the costs of carrying out the tasks/responsibilities identified in section II. Therefore, the minimum performance standard for this Agreement is to complete the items listed in that section.

In the Final Report, the Subrecipient shall address how the project objectives were accomplished.

D. Provide any additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

E. Identify below, and attach copies of, any relevant work products being submitted for the project for this reporting period (e.g., report data sets, links to on-line photographs, etc.).

1. Federal Financial Assistance Funding Opportunity Number: DE-FOA-0000052	2. Amount of funds requested for this project: \$200,000

Please note section XII Public Records in the Notice of Federal Financial Assistance Funding Opportunity before including any proprietary or confidential information.																									
<p>Project Narrative:</p> <p>The Village of Palmetto Bay, incorporated in 2002, is a local government with more than 24,000 residents. We are also known as the "Village of Parks" because we currently have 5 parks within our boundaries. For this grant program we will focus on two (2) of our most active parks:</p> <p>(1) Coral Reef Park (CRP), located at 7895 SW 162nd Street, was deeded over to the Village by Miami-Dade County on September 30, 2003. This park spanning more than 60-acres offers open green spaces, Pineland preserve areas, and the tranquil streaming canal. It is a central location for playing, walking, relaxing, and picnicking. Residents flock here for beach volleyball, tennis, football, soccer, baseball, a Boundless Playground, exercise trail, and abundance of indigenous birds and other wildlife. We have added a concession stand for visitors to take advantage of during football or baseball games held at the park. Coral Reef Park is open to the public from sunrise to sunset, but remains open in the evening for events such as baseball games or local events like movie night or family camping night. Also, the Tennis court area is open from 8am to 8pm Sunday to Saturday.</p> <p>(2) Palmetto Bay Park (PBP), located at 17535 SW 95th Avenue, is made up of 3 parcels that were deeded over at separate times on September 30, 2003 and September 5, 2006. This park has transitioned from a 6-acre park to a 25-acre park facility soon after incorporation and has been transformed into a veritable oasis of passive and active attractions. The new Palmetto Bay Park, once known as Perrine Park, features expansive green space, basketball courts, the largest Boundless Playgrounds in South Florida, a skate park newly painted by a local artist and a six-field, state-of-the-art softball complex. There is also a Recreation building where residents and other guests can rent for indoor parties or meetings. Palmetto Bay park is open 8am to 9pm Monday to Saturday and open 8am to 8pm Sunday. The night of softball games we remain open until the game has ended.</p> <p>Although we have made many improvements and upgrades, with the assistance of grants, to build up the parks ability to host sports and other community events and be a congregating area for all, we have not been able to secure funding to convert the lighting to a more energy efficient source. The importance of efficient lighting in this day and age is a subject written, discussed and practiced by many. The installation of energy efficient home appliances by consumers is rewarded with rebates or discounts from their electric company. It has been documented that changing from larger watt bulbs to lower watts can drastically lower an annual electricity bill. As a small community Palmetto Bay has led the way in green initiatives by building the first county-wide Leadership in Energy and Environmental Design (LEED)-certified park building at Coral Reef Park followed by the very first state-wide platinum LEED-certified Village Hall (https://therealdeal.com/miami/2012/10/24/palmetto-bays-village-hall-gets-lead-platinum-certification/). Which has efficient lighting run by solar panels that are on our roof and using motion censored lighting to avoid lights remaining on all day. The need for efficiency is in the forefront when creating our plan for both locations.</p> <p>The parking lot lights at Coral Reef Park (CRP) have been there since before we were given the property by Miami-Dade County. There are 2-one light stationary Metal Halides, 11-two light stationary Metal Halides, and 3-three light adjustable Metal Halides; photos are included so you can see the style of lights currently in place (EXHIBIT 1). For these parking lots, the Village wishes to implement solar lights that can be placed on the current poles and provide the quality of light needed for security and help to lower our current over \$20,000 annual FPL bill for this area of the park. These lights do not add a specific aesthetic component to the parking lots so they are easier to convert to solar lighting that will not negatively affect a theme appearance. There are 18 poles, 20 feet high with a combination of one or two stationary and 3 light adjustable to total 31 lights currently at the sites of conversion which expends a great deal of electricity using either 400 watts High Pressure Sodium or 400 watts Metal Halide bulbs. These lights are spread across 3 parking lot areas; 1-the main parking lot near the playground, 2-the middle parking lot near the volleyball and tennis courts, and 3-the parking lot on the east side of the park near the meditation gazebo area and band shell.</p> <p>The parking lot and walking path lights at Palmetto Bay Park (PBP) were constructed with a theme and aesthetic vintage look in mind (EXHIBIT 2). The recreation building has vintage 2x4 drop ceiling lights in all rooms except the storage/garage (EXHIBIT 2). For the outside lights at Palmetto Bay Park we would like to convert these to LED lights to maintain the aesthetics and theme look of the park. The lights currently used for the walking path and Boundless Playground are decorative lamp post design with single fuse lamps type SA520-B and double lamps used in the parking lot areas type SA520-A. Both have SH70 luminaire, a clear polycarbonate diffuser, 25M ballast, 480 voltage, and P3 - polycarbonate refractor IES III optics. Bulbs used for the single lamp posts of the walking path and Playground is M175/U Metal Halide and for the two lamp posts in the parking lots is M260/U. The annual electric FPL bill for this park is over \$39,000. The recreation building is an original structure on the property which was present when it was deeded over to the Village by Miami-Dade County and we have not been able to secure funding to change these 2x4 drop ceiling lights until this opportunity presented itself. We are still using incandescent bulbs for the recreation building as these are the most effective for the style of light. Our plan, with the aide of this grant, is to upgrade the fixtures of the recreation building to convert them to a more efficient LED light usage or equivalent and establish a more aesthetic look for the building as well. At this time there are a total of 26 lenses that hold 2 light units each for a total of 52 individual drop ceiling lights. These drop ceiling lights, as you will see in the photos, are in the main area, the small office, 2 restrooms and the hallway to the garage. In the garage are the straightliner channel two lamp set of 2 in the front and back of the garage equaling a total of 8 straightliner channel two lamps (EXHIBIT 2). There are 52 total poles between the parking lot, walking path and Boundless Playground at 20 feet high using a total of 79 bulbs.</p> <p>As a municipality, Palmetto Bay must open all projects over \$25,000 to a Request for Proposal (RFP) process which means we will make companies aware of our desires and they will provide us with proposals for the advertised work. The RFP remains open for 30 days to give contractors enough time to submit. At the end of the 30 days there is a public bid opening where the Village Clerk and Procurement specialist will publicly open the proposals, make note of the company and total cost they propose for the project. These then goes through a review process and the selected vendor gets approved by Council; then an agreement is drawn and the final agreement will be brought before council for final approval. At the completion of this process the contractor is allowed to begin work after they have been provided a Notice To Proceed.</p> <p>If we are fortunate enough to receive this award our timeline of procedures is as follows: (Timeline is subject to change due to any unforeseen circumstances.)</p> <table border="1"> <thead> <tr> <th>DATE</th> <th>ACTION</th> </tr> </thead> <tbody> <tr> <td>04/18/2018</td> <td>Award Notification.</td> </tr> <tr> <td>04/20/2018 - 05/04/2018</td> <td>Prepare bid documents to advertise to public.</td> </tr> <tr> <td>06/07/2018</td> <td>Award and agreement acceptance before council.</td> </tr> <tr> <td>05/04/2018 - 06/05/2018</td> <td>Bid advertised to the public for 30 days to receive proposals from contractors.</td> </tr> <tr> <td>06/06/2018</td> <td>Bid opening held and all proposals filed with costs.</td> </tr> <tr> <td>06/07/2018 - 06/21/2018</td> <td>Two weeks review process to short list contractors.</td> </tr> <tr> <td>07/02/2018</td> <td>Selected bidder proposal brought before council and selection approved.</td> </tr> <tr> <td>07/03/2018 - 07/24/2018</td> <td>Agreement preparation, review and finalization with Village Attorney, Village Manager, Procurement Specialist, Contractor and Contractor Attorney.</td> </tr> <tr> <td>08/08/2018</td> <td>Final agreement is brought before council and we are able to provide contractor with Notice To Proceed.</td> </tr> <tr> <td>08/13/2018</td> <td>Contractor begins work.</td> </tr> <tr> <td>10/20/2018</td> <td>Project complete - extra time allocated for any incidentals</td> </tr> </tbody> </table>		DATE	ACTION	04/18/2018	Award Notification.	04/20/2018 - 05/04/2018	Prepare bid documents to advertise to public.	06/07/2018	Award and agreement acceptance before council.	05/04/2018 - 06/05/2018	Bid advertised to the public for 30 days to receive proposals from contractors.	06/06/2018	Bid opening held and all proposals filed with costs.	06/07/2018 - 06/21/2018	Two weeks review process to short list contractors.	07/02/2018	Selected bidder proposal brought before council and selection approved.	07/03/2018 - 07/24/2018	Agreement preparation, review and finalization with Village Attorney, Village Manager, Procurement Specialist, Contractor and Contractor Attorney.	08/08/2018	Final agreement is brought before council and we are able to provide contractor with Notice To Proceed.	08/13/2018	Contractor begins work.	10/20/2018	Project complete - extra time allocated for any incidentals
