Available and in term contract but size specified in term contract not available at this time.

Available as noted, but not in term contract. An or equal item number used for pricing.

Note: This Preliminary Statement of Probable Construction Cost is based on piggy backing onto a previous bid by Vila & Son (Palm Beach Co. 2005 term contract). The price per tree includes topsoil, mulch, staking and (1) year of post construction maintenance. This will result in a substantial savings by being able to lock into February 2005 pre-hurricane prices. The cost of plant material has increased and the availability of large material has decreased since the 2005 hurricanes. The pricing and size of plant material is based on the current market availability.
