Re: Amended Building Fee schedule-
First Reading

AN ORDINANCE OF THE MAYOR AND VILLAGE COUNCIL OF THE VILLAGE OF PALMETTO BAY, FLORIDA, RELATING TO BUILDING PERMIT FEES; AMENDING THE PERMIT FEE SCHEDULE FOR THE BUILDING DEPARTMENT; PROVIDING FOR SEVERABILITY; AND AN EFFECTIVE DATE.

BACKGROUND AND ANALYSIS:

In 2013, the Village enacted Ordinance No. 2013-04, adopting the 2013 Permit Fee Schedule. Said ordinance updated and revised the 2008-09 Permit Fee Schedule, and incorporated into the schedule all aspects of the permitting process, including building, zoning and public works permitting requirements. Additionally, the updated schedule provided for a simplified fee structure and reduced fees in accordance with the recommendations of the 2011 Building and Permitting Advisory Committee, as accepted by the Village Council.

Following Council direction, the Building and Capital Projects Department, in charge of accepting, processing and issuing building permits, has completed a thorough review of its operational expenses to determine whether additional reductions in the fee schedule were feasible. Pursuant to this review, the department is recommending further reductions to the current building permit fees, as well as reductions to the zoning permit fees associated with the building permitting process. The proposed fee schedule provides for lower service charges, while allowing the department to maintain its high standard for customer service, provide for emergency funds in the case of an unexpected event and remain revenue-neutral.

The proposed modifications are shown on the attached schedule, which shows the existing and proposed permit fees. Staff is requesting to implement the new fee schedule 60 days after adoption, so that the department can effectively coordinate a seamless transition into the new fee schedule, update forms and computer programs, and properly notify the community and personnel, as required, of the modifications.

FISCAL/BUDGETARY IMPACT:

The proposed fee schedule keeps the building department fund as a revenue-neutral enterprise fund, which requires that building fees be utilized not for supplementing the general revenue fund, but to be revenue-neutral to the building department.
