From: Ron E. Williams, Village Manager

Re: Land Use Capacity Study  
Deferral Request

---

Staff is recommending deferral of the Land Use Capacity Study presentation. Staff's review of the Consultant's draft found certain aspects of the study not fully developed thus requiring additional time to ensure a more complete evaluation and response is available for the Mayor and Village Council's consideration. Additional data is being culled so that a final report can be prepared. The item will be rescheduled as appropriate once the study and report are fully completed.
