Not Shown or Indicated: If an Underground Utility is uncovered or revealed at or contiguous to the site which was not shown or indicated in the Contract Documents and which the Contractor could not reasonably have been expected to be aware of, the Contractor shall identify the Village of such Underground Utility and give written notice thereof to that Village, and shall notify the Architect in accordance with the requirements of the Conditions herein and Section entitled "Protection of Existing Facilities" of This Agreement.

8.13 Reference Points. The Contractor shall furnish all lines, grades, and bench marks required for proper execution of the Work. The Contractor shall preserve all bench marks, stakes, and other survey marks, and in case of their removal or destruction by its own employees or by its subcontractor's employees, the Contractor shall be responsible for the accurate replacement of such reference points by professionally qualified personnel.

8.14 Asbestos, Hazardous Waste, Or Toxic Or Radioactive Materials. If the Contractor observes, uncovers, or otherwise becomes aware of any asbestos, hazardous waste, or toxic or radioactive material at the site to which the Contractor or any Subcontractor, Supplier, or other person may be exposed, the Contractor shall immediately notify the Village, the Architect and Engineer and thereafter confirm any oral notice in writing. The Village will promptly consult with the Architect an Engineer concerning such condition and determine the necessity of Village's retaining special Consultants or qualified experts to deal therewith. The Contractor shall not perform any Work in connection therewith prior to receipt of special written instructions from the Village through the Architect and Engineer.

SECTION 9. SPECIFICATIONS. The Site Specifications can be found attached hereto as Exhibit 2.

SECTION 10. ARCHITECT'S STATUS DURING CONSTRUCTION

10.1 Village's Representative. The Chief Building Official, Architect and Engineer will be the Village's representative during the construction period. The duties and responsibilities and the limitations of authority of the Chief Building Official, Architect and Engineer as the Village's representative during construction are set forth in the Contract Documents.

10.2 Visits To Site. The Chief Building Official, Architect and Engineer will make visits to the site during construction to observe the progress and quality of the Work and to determine, in general, if the Work is proceeding in accordance with the Contract Documents. The Architect and Engineer will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Architect and Engineer will not, during such visits or as a result of such observations of the Contractor's Work in progress, supervise, direct, or have control over the Contractor's Work.

10.3 Project Representation. The Architect may furnish a Resident Project Representative to assist in observing the performance of the Work. The duties, responsibilities, and limitations of authority of any such Resident Project Representative and assistants will be as provided in the Conditions to this Agreement.

10.4 Clarifications And Interpretations. The Architect and Engineer will issue with reasonable promptness such written clarifications or interpretations of the requirements of the Contract Documents (in the form of Drawings or otherwise) as the Architect and Engineer may determine necessary, which shall be consistent with or reasonably inferable from the overall intent of the Contract Documents.

10.5 Authorized Variations In Work. The Architect and Engineer may authorize minor variations in the Work from the requirements of the Contract Documents which do not involve an adjustment in the Contract Price or the Contract Time and are consistent with the overall intent of the Contract Documents. These may be accomplished by a Field Order and will require the Contractor to perform the Work involved promptly. If the Contractor believes that a Field Order justifies an increase in the Contract Price or an extension of the Contract time and the parties are unable to agree as to the amount or extent thereof, the Contractor may make a claim therefore as provided under the indemnification or insurance provision..

10.6 Rejecting Defective Work. The Architect will have authority to reject Work which the Architect believes to be defective and will also have authority to require special inspection or testing of the Work as provided in this agreement, whether or not the Work is fabricated, installed, or completed.

10.7 Contractor Submittals, Change Orders, And Payments

- a. In accordance with the procedures set forth in the in this Agreement, the Architect and Engineer will review all Contractor submittals, including shop drawings, samples, substitutes, or "or equal" items, etc., in order to determine if the items covered by the submittals will, after installation or incorporation in the Work, conform to the requirements of the Contract Documents and be compatible with the design concept

of the completed project as a functioning whole as indicated by the Contract Documents. The Architect's and Engineer's review will not extend to means, methods, techniques, sequences or procedures of construction or to safety precautions or programs incident thereto.

b. In connection with the Architect's responsibilities as to Change Orders, see Subsection 10.9 and Section 11.

c. In connection with the Architect's and Engineer's responsibilities in respect of Applications for Payment, see provision relating to same.

10.8 Decisions On Disputes.

a. The Architect will be the initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the Work thereunder. Claims, disputes, and other matters relating to the acceptability of the Work; the interpretation of the requirements of the Contract Documents pertaining to the performance of the Work; and those claims in respect to changes in the Contract Price or Contract Time will be referred initially to the Architect in writing with a request for formal decision in accordance with this Section, which the Architect will render in writing within thirty (30) days of receipt of the request. Written notice of each such claim, dispute, and other matter will be delivered by the Contractor to the Architect promptly (but in no event later than thirty (30) days) after the occurrence of the event giving rise thereto. Written supporting data will be submitted to the Architect within sixty (60) days after such occurrence unless the Architect allows an additional period of time to ascertain more accurate data in support of the claim.

b. When functioning as arbiter and judge, the Architect will not show partiality to the Village or the Contractor and will not be liable in connection with any interpretation or decision rendered in good faith in such capacity. The rendering of a decision by the Architect with respect to any such claim, dispute, or other matter (except any which have been waived by the making or acceptance of final payment as provided in this agreement). will be a condition precedent to any exercise by the Village or the Contractor of such rights or remedies as either may otherwise have under the Contract Documents or by Law or Regulations in respect of any such claim, dispute, or other matter.

10.9 Limitation On Architect's Responsibilities

a. Neither the Architect's authority to act under this Section or other provisions of the Contract Documents nor any decision made by the Architect in good faith either to exercise or not exercise such authority shall give rise to any duty or responsibility of the Architect to the Contractor, any Subcontractor, any Supplier, any surety for any of them, or any other person or organization performing any of the Work.

b. Whenever in the Contract Documents the terms "as ordered," "as directed," "as required," "as allowed," "as reviewed," "as approved," or terms of like effect or import are used, or the adjectives "reasonable," "suitable," "acceptable," "proper," or "satisfactory" or adjectives of like effect or import are used to describe a requirement, direction, review, or judgment of the Architect as to the Work, it is intended that such requirement, direction, review, or judgment will be solely to evaluate the Work for compliance with the requirements of the Contract Documents, and conformance with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents, unless there is a specific statement indicating otherwise. The use of any such term or adjective shall not be effective to assign to the Architect any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility contrary to the provisions relating to being an independent contractor.

c. The Architect will not have authority over or be responsible for the Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of the Contractor to comply with Laws and Regulations, applicable to the

performance of the Work. The Architect will not be responsible for the Contractor's failure to perform the Work in accordance with the Contract Documents.

d. The Architect will not be responsible for the acts or omissions of the Contractor nor of any subcontractor, supplier, or any other person or organization performing any of the Work.

SECTION 11. CHANGES IN THE WORK

11.1 General

a. Without invalidating the Agreement and without notice to any surety, the Village may at any time or from time to time, order additions, deletions, or revisions in the Work; these will be authorized by a written Field Order and/or a Change Order issued by the Architect. Upon receipt of any such document, the Contractor shall promptly proceed with the Work involved which will be performed under the applicable conditions of the Contract Documents. Attached hereto is the Form Change Order, which shall provide additional instructions, required additional Work or direct the omission of Work previously ordered. Only those changes in the Work that are approved on the Change Order, in the Form attached hereto, and executed by an authorized representative of Village ("Change Order"), shall be binding on the Village.

b. If the Village and the Contractor are unable to agree as to the extent, if any, of an increase or decrease in the Contract Price or an extension or shortening of the Contract Time that should be allowed as a result of a Field Order, a claim may be made therefore as provided in section 1 or 13.

c. The Contractor shall not be entitled to an increase in the Contract Price nor an extension of the Contract Time with respect to any Work performed that is not required by the Contract Documents as amended, modified, supplemented by Change Order, except in the case of an emergency and except in the case of uncovering Work as provided in this agreement.

d. The Village and the Contractor shall execute appropriate Change Orders covering:

1. changes in the Work which are ordered by the Village pursuant to the provisions of this agreement;
2. changes required because of acceptance of defective Work under this agreement;
3. changes in the Contract Price or Contract Time which are agreed to by the parties; or
4. any other changes agreed to by the parties.

d. If notice of any change is required by the provisions of any Bond to be given to a surety, the giving of any such notice will be the Contractor's responsibility, and the amount of each applicable Bond shall be adjusted accordingly.

f. Village may order changes in the Work by initiating a change order request, setting forth in detail the nature of the requested change. Upon receipt of a Change Order Request, the Contractor shall prepare a statement setting forth in detail, with a suitable detailed breakdown by trades and work classifications with respect to a change in the scope of the construction and a detailed breakdown of the time and expenses related to the design phase, the Contractor's estimate of the Changes in the Contract Sum attributable to the changes set forth in such Change Order Request and proposed adjustments, if any to the Substantial Completion Date resulting from such Change Order Request. If the Village and the Contractor agree on a cost ("agreed Cost") a Change Order shall be processed by the Village and delivered to the Contractor for signature. Contractor shall not commence changes in the Work until it receives Village's written Notice to Proceed or the Change Order is executed. Agreement on any Change Order shall constitute a final settlement on all items affected therein, including without limitation any adjustment in the Contract Sum,

the Substantial Completion Date, subject to performance thereof and payment therefore pursuant to the terms of the Agreement and such Change Order. Work provided by unit price may be increased or decreased in quantity as directed by the Village approval, provided that the basis for adjustment of the Contract Sum shall be the unit prices agreed upon by the Village upon the date of this Agreement.

g. In the event the Village and the Contractor cannot agree on any adjustment in the Contract Sum, extensions to the Contract Time, or adjustment to the Substantial Completion Date, the Contractor shall nevertheless proceed to perform the Work required by the Village's Change Order Request upon receipt of the Village's written Notice to Proceed. The Contractor shall keep separate records of all costs and time required to perform the Work required by the Change Order Request, and an equitable adjustment will be made upon agreement between the Contractor and Village. The Contractor shall submit its time and material costs that accrue as a result of the Change Order Request on a weekly basis. If the Village does not approve such submittals within seven (7) days following submission, the Contractor may cease work related to such Change Order Request until the parties agree upon the terms and conditions of such Change Order Request.

h. In the event that changes in the Work are required on an emergency basis in order to protect the health and safety of the public, the Contractor shall proceed at the written direction of the Village's authorized agent without a written Change Order from Village. The Contractor shall keep separate records of all costs and time required to perform the Work. After review and approval by the Village, the Contractor shall invoice Village in accordance on a time and materials basis. In the event that the Work can be stopped without any further harm to the public but additional Work is necessary, the Contractor shall deliver the Contractor's Estimate to the Village as soon as practical and comply with the provisions herein.

i. It is understood and agreed that refinement and detailing will be accomplished from time to time with respect to the plans and specifications and addenda. No adjustment in the Contract Sum or the Substantial Completion Date shall be made unless (a) such refinement or detailing results in changes in the scope, quality, function and/or intent of the plans and specifications and addenda not reasonably inferable or anticipatable by a Contractor of the Contractor's experience and expertise; (b) the Contractor advises Village in writing within 10 calendar days of the Contractor's receipt of said refinements and details that an adjustment is required; and (c) Village agrees to the adjustment.

j. Unless otherwise provided in the Change Order, agreement on any Change Order shall constitute a final settlement and release by the Contractor of all matters relating to the change in the Work which is subject of the Change Order, including but not limited to, all direct and indirect costs associated with such change and any and all adjustments to the Contract Sum and the construction schedule.

11.2 Allowable Quantity Variations

a. In the event of an increase or decrease in bid item quantity of a unit price within the Contract, the total amount of Work actually done or materials or equipment furnished shall be paid for according to the unit price established for such Work under the Contract Documents, wherever such unit price has been established; provided, that an adjustment in the Contract Price may be made for changes which result in an increase or decrease in the quantity of any unit price bid item of the Work in excess of twenty-five (25) percent. The Contractor shall prepare a detail description of work showing quantities, pricing, and economic and market justifications supporting the increase in price. The Village will either accept or reject the price increase.

b. In the event a part of the Work is to be entirely eliminated and no lump sum or unit price is named in the Contract Documents to cover such eliminated Work, the price of the eliminated Work shall be agreed upon in writing by the Village and the Contractor. If the Village and the Contractor fail to agree upon the price of the eliminated Work, said price shall be determined in accordance with the provisions of Section 17, below.

SECTION 12.CHANGE OF CONTRACT PRICE

12.1 General

a. The Contract Price constitutes the total compensation payable to the Contractor for performing the Work. All duties, responsibilities, and obligations assigned to or undertaken by the Contractor shall be at its expense without change in the Contract Price.

b. The Contract Price may only be changed by a Change Order. Any claim for an increase in the Contract Price shall be based on written notice delivered by the Contractor to the Architect promptly (but in no event later than thirty (30) days) after the occurrence of the event giving rise to the claim and stating the general nature of the claim. Notice of the amount of the claim with supporting data shall be delivered within sixty (60) days after such occurrence (unless the Architect allows an additional period of time to ascertain more accurate data in support of the claim) and shall be accompanied by the Contractor's written statement that the amount claimed covers all known amounts (direct, indirect, and consequential) to which the Contractor is entitled as a result of the occurrence of said event. All claims for adjustment in the Contract Price shall be determined by the Architect if the Village and the Contractor cannot otherwise agree on the amount involved. No claim for an adjustment in the Contract Price will be valid if not submitted in accordance with this Section.

c. The value of any Work covered by a Change Order or of any claim for an increase or decrease in the Contract Price shall be determined in one of the following ways:

1. Where the Work involved is covered by unit prices contained in the Contract Documents, by application of unit prices to the quantities of the items involved.

2. By mutual acceptance of a lump sum, which may include an allowance for overhead and profit not necessarily in accordance with Section 12.4.

3. On the basis of the cost of Work (determined as provided in Sections 12.2 and 12.3) plus a Contractor's fee for overhead and profit (determined as provided in Section 12.4).

12.2 Cost Of Work (Based On Time And Materials)

a. General: The term "Cost of Work" means the sum of all costs necessarily incurred and paid by the Contractor for labor, materials, and equipment in the proper performance of extra Work. Except as otherwise may be agreed to in writing by the Village, such costs shall be in amounts no higher than those prevailing in the locality of the Project. Whenever any extra Work is in progress, for which the definite price has not been agreed on in advance, the Contractor shall each day, report to the Architect the amount and cost of the labor and material used, and any other expense incurred in such extra Work on the preceding day, and no claim for compensation for such extra Work will be allowed unless such report shall have been made.

b. Labor: The cost of labor used in performing extra Work by the Contractor, a subcontractor, or other forces will be the sum of the following:

1. The actual wages paid plus any employer payments to, or on behalf of workers for fringe benefits including health and welfare, pension, vacation, and similar purposes. The cost of labor may include the wages paid to foremen when determined by the Architect that the services of foremen do not constitute a part of the overhead allowance.

2. All payment imposed by state and federal laws including, but not limited to, compensation insurance, and social security payments.

3. The amount paid for subsistence and travel required by collective bargaining agreements, or in accordance with the regular practice of the employer.
4. At the beginning of the extra Work and as later requested by the Architect, the Contractor shall furnish the Architect proof of labor compensation rates being paid.

c. Materials: The cost of materials used in performing extra Work will be the cost to the purchaser, whether Contractor or subcontractor, from the supplier thereof, except as the following are applicable:

1. Trade discounts available to the purchaser shall be credited to the Village notwithstanding the fact that such discounts may not have been taken by the Contractor.
2. For materials secured by other than a direct purchase and direct billing to the purchaser, the cost shall be deemed to be the price paid to the actual supplier as determined by the Architect. Markup except for actual costs incurred in the handling of such materials will not be allowed.
3. Payment for materials from sources owned wholly or in part by the purchaser shall not exceed the price paid by the purchaser for similar materials from said sources on extra Work items or the current wholesale price for such materials delivered to the Work site, whichever price is lower.
4. If in the opinion of the Architect the cost of material is excessive, or the Contractor does not furnish satisfactory evidence of the cost of such material, then the cost shall be deemed to be the lowest current wholesale price for the quantity concerned delivered to the Work site less trade discount. The Village reserves the right to furnish materials for the extra Work and no claim shall be made by the Contractor for costs and profit on such materials.

d. Equipment: The Contractor will be paid for the use of equipment as stated in the latest edition of the "Compilation of Rental Rates for Construction Equipment" by Associated Equipment Distributors. Such rental rate will be used to compute payments for equipment whether the equipment is under the Contractor's control through direct ownership, leasing, renting, or another method of acquisition. The rental rate to be applied for use of each item of equipment shall be the rate resulting in the least total cost to the Village for the total period of use. The Contractor may furnish cost data which might assist the Architect in the establishment of the rental rate.

1. All equipment shall, in the opinion of the Architect, be in good working condition and suitable for the purpose for which the equipment is to be used.
2. Before construction equipment is used on the extra Work, the Contractor shall plainly stencil or stamp an identifying number thereon at a conspicuous location, and shall furnish to the Architect, in duplicate, a description of the equipment and its identifying number.
3. Unless otherwise specified, manufacturer's ratings and manufacturer approved modifications shall be used to classify equipment for the determination of applicable rental rates. Equipment which has no direct power unit shall be powered by a unit of at least the minimum rating recommended by the manufacturer.
4. Individual pieces of equipment or tools having a replacement value of \$100 or less, whether or not consumed by use, shall be considered to be small tools and no payment will be made therefore.
5. Rental time will not be allowed while equipment is inoperative due to breakdowns.

d. Equipment on the Work Site: The rental time to be paid for equipment on the Work site shall be the time the equipment is in productive operation on the extra Work being performed and, in addition, shall include the time required to move the equipment to the location of the extra Work and return it to the original location or to another location requiring no more time than that required to return it to its original location; except, that moving time will not be paid if the equipment is used on other than the extra Work, even though located at the site of the extra Work. Loading and transporting costs will be allowed, in lieu of moving time, when the equipment is moved by means other than its own power, except that no payment will be made for loading and transporting costs when the equipment is used at the site of the extra Work on other than the extra Work. The following shall be used in computing the rental time of equipment on the Work site.

1. When hourly rates are listed, any part of an hour less than 30 minutes of operation shall be considered to be 1/2 hour of operation, and any part of an hour in excess of 30 minutes will be considered one hour of operation.

2. When daily rates are listed, any part of a day less than 4 hours operation shall be considered to be 1/2 day of operation. When Village-operated equipment is used to perform extra Work to be paid for on a time and materials basis, the Contractor will be paid for the equipment and operator, as set forth in Sections (3), (4), and (5), following.

3. Payment for the equipment will be made in accordance with the provisions in subsection d, herein.

4. Payment for the cost of labor and subsistence or travel allowance will be made at the rates paid by the Contractor to other workers operating similar equipment already on the Work site, or in the absence of such labor, established by collective bargaining agreements for the type of workmen and location of the extra Work, whether or not the operator is actually covered by such an agreement. A labor surcharge will be added to the cost of labor described herein in accordance with the provisions of Section 12, herein, which surcharge shall constitute full compensation for payments imposed by state and federal laws and all other payments made to or on behalf of workers other than actual wages.

5. To the direct cost of equipment rental and labor, computed as provided herein, will be added the allowances for equipment rental and labor as provided in Section 12.3, herein.

12.3 Special Services

a. Special Work or services are defined as that Work characterized by extraordinary complexity, sophistication, or innovation or a combination of the foregoing attributes which are unique to the construction industry. The following may be considered by the Architect in making estimates for payment for special services:

1. When the Architect and the Contractor, by agreement, determine that a special service or Work is required which cannot be performed by the forces of the Contractor or those of any of its subcontractors, the special service or Work may be performed by an entity especially skilled in the Work to be performed. After validation of invoices and determination of market values by the Architect, invoices for special services or Work based upon the current fair market value thereof may be accepted without complete itemization of labor, material, and equipment rental costs.

2. When the Contractor is required to perform Work necessitating special fabrication or machining process in a fabrication or a machine shop facility away from the job site, the charges for that portion of the Work performed at the off-site facility may, by agreement, be accepted as a special service and accordingly, the invoices for the Work may be accepted without detailed itemization.

3. All invoices for special services will be adjusted by deducting all trade discounts offered or available, whether the discounts were taken or not. In lieu of the allowances for overhead and profit specified in this agreement, an allowance of five (5) percent will be added to invoices for special services.

c. All Work performed hereunder shall be subject to all of the provisions of the Contract Documents and the Contractor's sureties shall be bound with reference thereto as under the original Agreement. Copies of all amendments to surety bonds or supplemental surety bonds shall be submitted to the Village for review prior to the performance of any Work hereunder.

12.4 Reserved.

12.5 Excluded Costs

a. The term "Cost of the Work" shall not include any of the following:

1. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnership and sole proprietorships) general managers, Architect, engineers, estimators, attorneys' auditors accountants, purchasing and contracting agents, expeditors, time keepers, clerks, and other personnel employed by Contractor whether at the site or in Contractor's principal or a branch office for general administration of the Work and not specifically covered by the termination for default provision of this Agreement all of which are to be considered administrative costs covered by the Contractor's allowance for overhead and profit;
2. Expenses of Contractor's principal and branch offices other than Contractor's office at the site;
3. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments;
4. Cost of premiums for all Bonds and for all insurance whether or not Contractor is required by the Contract Documents to purchase and maintain the same (except for the cost of premiums covered by the termination for default provision);
5. Costs due to the negligence of Contractor, any Subcontractor, or anyone directly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

SECTION 13.CHANGE OF CONTRACT TIME

13.1 General

a. The Contract Time may only be changed by a Change Order. Any claim for an extension of the Contract Time shall be based on written notice delivered by the Contractor to the Architect promptly (but in no event later than seven (7) days) after the occurrence of the event giving rise to the claim and stating the general nature of the claim. Notice of the extent of the claim with supporting data shall be delivered within 15 days after such occurrence (unless the Architect allows an additional period of time to ascertain more accurate data in support of the claim) and shall be accompanied by the Contractor's written statement that the adjustment claimed is the entire adjustment to which the Contractor has reason to believe it is entitled as a result of the occurrence of said event. All claims for adjustment in the Contract Time shall be determined by the Architect in accordance with Section 12 if the Village and the Contractor cannot otherwise agree. No claim for an adjustment in the Contract Time will be valid if not submitted in accordance with the requirements of this Section.

b. The Contract Time will be extended in an amount equal to time lost due to delays beyond the control of the Contractor provided that such time lost affects the critical path as shown on the schedule if a claim is made therefore as provided in Section 13.1a. Such delays shall include: acts or neglect by the Village or others performing additional Work as contemplated by Section 12, or by acts of God or of the public

enemy, fire, floods, epidemics, quarantine restrictions, strikes, labor disputes, sabotage, or freight embargoes.

c. Force Majeure: The performance of this Agreement may be suspended and the obligations of either party excused in the event of and during the period that such performance is prevented or delayed by a Force Majeure occurrence.

d. All time limits stated in the Contract Documents are of the essence of the Agreement.

13.2 Extensions Of Time For Delay Due To Inclement Weather

a. Contract Times may be extended by the Architect because of delays in the completion of the Work due to unusually severe weather, provided that the Contractor shall, within ten (10) days of the beginning of any such delay, notify the Architect in writing of the cause of delay and request an extension of Contract Times. The Architect will ascertain the facts and the extent of the delay and extend the Contract times when, in its judgment, the findings of the fact justify such an extension.

b. The Contractor shall base its construction schedule upon the inclusion of the number of days of inclement weather specified herein. No extension of the Contract Time due to inclement weather will be considered until after the said number of days of inclement weather has been reached. However, no reduction in Contract Time will be made if said number of days of inclement weather is not reached.

SECTION 14. WARRANTY AND GUARANTEE; TESTS AND INSPECTIONS; CORRECTION, REMOVAL, OR ACCEPTANCE OF DEFECTIVE WORK

14.1 Warranty And Guarantee. The Contractor warrants and guarantees to the Village and the Architect that all Work will be in accordance with the Contract Documents and will not be defective. Prompt notice of defects known to the Village or Architect shall be given to the Contractor. All defective Work, whether or not in place, may be rejected, corrected, or accepted as provided in this section.

14.2 Access To Work. The Architect, Engineer and other representatives of the Village, testing agencies, and governmental agencies with jurisdictional interests shall have access to the Work at reasonable times for their observation, inspections, and testing. The Contractor shall provide proper and safe conditions for such access.

14.3 Tests And Inspections.

a. The Contractor shall give the Architect timely notice of readiness of the Work for all required inspections, tests, or approvals.

b. If Laws or Regulations of any public body having jurisdiction other than the Village require any Work to specifically be inspected, tested, or approved, the Contractor shall pay all costs in connection therewith. The Contractor shall also be responsible for and shall pay all costs in connection with any inspection or testing required in connection with the Village's or the Architect's acceptance of a Supplier of materials or equipment proposed as a substitution or (or-equal) to be incorporated in the Work, or of materials or equipment submitted for review prior to the Contractor's purchase thereof for incorporation in the Work. The costs of all inspections, tests, and approvals in addition to the above which are required by the Contract Documents shall be paid by the Village (unless otherwise specified). The Contractor will pay for failed tests and "stand-by time" by the Laboratory Tests personnel and others.

c. The Architect will make, or have made, such inspections and test as the Architect deems necessary to see that the Work is being accomplished in accordance with the requirements of the Contract Documents. Unless otherwise specified in this Agreement, the cost of such inspection and testing will be borne by the Village. In the event such inspections or tests reveal non-compliance with the requirements of the Contract

Documents, the Contractor shall bear the cost of corrective measures deemed necessary by the Architect, as well as the cost of subsequent re-inspection and retesting. Neither observations by the Architect nor inspections, tests, or approvals by others shall relieve the Contractor from the Contractor's obligation to perform the Work in accordance with the Contract Documents.

d. All inspections, tests, or approvals other than those required by Laws or Regulations of any public body having jurisdiction shall be performed by organizations acceptable to the Architect and the Contractor.

e. If any Work (including the Work of others) that is to be inspected, tested, or approved is covered without written concurrence of the Architect, it must, if requested by the Architect, be uncovered for observation. Such uncovering shall be at the Contractor's expense unless the Contractor has given the Architect timely notice of the Contractor's intention to perform such test or to cover the same and the Architect has not acted with reasonable promptness in response to such notice.

f. If any Work is covered contrary to the written request of the Architect, it must, if requested by the Architect, be uncovered for the Architect's observation and replaced at the Contractor's expense.

g. If the Architect considers it necessary or advisable that covered Work be observed by the Architect or inspected or tested by others, the Contractor, at the Architect's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as the Architect may require, that portion of the Work in question, furnishing all necessary labor, material, and equipment. If it is found that such Work is defective, the Contractor shall bear all direct, indirect, and consequential costs and damages of such uncovering, exposure, observation, inspection, and testing and of satisfactory reconstruction, including but not limited to fees and charges of Architect, engineers, attorneys, and other professionals. However, if such Work is not found to be defective, the Contractor shall be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to such uncovering, exposure, observation, inspection, testing, and reconstruction; and, if the parties are unable to agree as to the amount or extent thereof, the Contractor may make a claim therefore as provided above.

14.4 Village May Stop The Work. If the Work is defective, or the Contractor fails to perform Work in such a way that the completed Work will conform to the Contract Documents, the Village may order the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of the Village to stop the Work shall not give rise to any duty on the part of the Village to exercise this right for the benefit of the Contractor or any other party.

14.5 Correction Or Removal Of Defective Work. If required by the Architect, the Contractor shall promptly, either correct all defective Work, whether or not fabricated, installed, or completed, or, if the Work has been rejected by the Architect, remove it from the site and replace it with non-defective Work. The Contractor shall bear all direct, indirect and consequential costs and damages of such correction or removal, including but not limited to fees and charges of Architect, Engineers, attorneys, and other professionals made necessary thereby.

14.6 One-Year Correction Period.

a. If within one year after the date of Substantial Completion or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee required by the Contract Documents or by any specific provision of the Contract Documents, any Work is found to be defective, the Contractor shall promptly, without cost to the Village and in accordance with Village's written notification, either correct such defective Work, or, if it has been rejected by the Village, remove it from the site and replace it with non-defective Work. If the Contractor does not promptly comply with the such notification, or in an emergency where delay would cause serious risk of loss or damage, the Village may have the defective Work corrected or the rejected Work removed and replaced, and all direct, indirect, and consequential costs and damages of such removal and replacement including but not limited to fees and charges of Architect, engineers, attorneys and other professionals will be paid by the Contractor.

b. 36.5 Contractor and its associates covenant that they have no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this contract. Contractor is to comply with the Copeland "Anti-Kickback" Act (18 U.S.C. 874), as supplemented in Department of Labor Regulations (29 CFR Part 3).

36.7 No member, officer or employee of Village, or its designees or agents, no member of the governing body of the locality or localities who exercise any functions or responsibilities with respect to the program during his tenure or for one (1) year thereafter, shall have any interest, direct or indirect in any contract or subcontract, or the proceeds thereof, for work to be performed in connection with the program assisted under the Contract.

SECTION 37. WARRANTY OF AUTHORITY. The signatories to this contract warrant that they are duly authorized by action of their respective Village commission, board of directors or other Village to execute this contract and to bind the parties to the promises, terms, conditions and warranties contained in this contract.

SECTION 38. MISCELLANEOUS PROVISION. In the event a court must interpret any word or provision of this agreement, the word or provision shall not be construed against either party by reason of drafting or negotiating this agreement.

SECTION 39. PERFORMANCE BOND.

39.1 Within ten (10) business days after its acceptance of the terms and conditions of this agreement, the Contractor shall file with the Village clerk, a bond in the amount of the contract having as a surety a company qualified to do business in the State of Florida and reasonably acceptable to the Village (the "performance bond"). The performance bond shall secure the full and faithful performance by the Contractor of all requirements, duties, and obligations imposed upon the Contractor by the provisions of this agreement. The performance bond shall provide that the surety shall give sixty (60) days prior written notice of any cancellation thereof to the Village. The Contractor shall cause the performance bond to be renewed or replaced and in effect at all times throughout the term of this agreement.

39.2 Upon the request of the Village in connection with any construction or installation of facilities under this agreement in which the cost exceeds \$50,000, and prior to the issuance of any permits therefore, the Contractor shall file with the Village clerk prior to the construction or installation, a bond in an amount equal to the projected cost of the construction having as a surety a company qualified to do business in the State of Florida and reasonably acceptable to the Village (the "construction bond"). The construction bond shall be conditioned on the completion of the applicable construction of facilities by the Contractor in compliance with all applicable permits, laws, rules, and regulations. The construction bond shall provide that the surety shall give sixty (60) days prior written notice of any cancellation thereof to the Village. Upon Contractor's written request, the Village shall release each such construction bond twelve (12) months after the completion of the applicable construction and restoration in compliance with all applicable permits, laws, rules, and regulations.

39.3 Recovery by the Village under a performance bond, construction bond or under insurance shall not limit the Contractor's indemnification obligations set forth in this agreement with respect to its construction, maintenance, and operations, provided that the Village shall not be entitled to double recovery. Recovery by the Village under either a bond or insurance is in addition to all other rights of the Village, whether specified in this agreement or authorized by law, provided that the Village shall not be entitled to double recovery. If a performance bond or construction bond required by this agreement and previously approved by the Village is suspended, voided, or cancelled and not replaced, then the occurrence shall be a violation of this agreement, subject to the notice and cure periods and remedies provided in this agreement.

SECTION 40. ADDITIONAL BOND. It is further mutually agreed between the parties hereto that if, at any time after the execution of this Agreement and the Performance and Payment Bonds, which bonds shall be guaranteed for a 100% of the construction cost price, hereto attached for its faithful performance, the Village shall deem the surety or sureties upon such bonds to be unsatisfactory, or if, for any reason, such bond(s) ceases to be adequate to cover the performance of the work, the Contractor shall at his/her expense, and within three (3) days after the receipt of Notice from the Village to do so, furnish an additional bond or bonds, in such a form and amount, and with such sureties as shall be satisfactory to the Village. In such event, no further payment to the Village shall be deemed due under this Agreement until such new or additional security for the faithful performance of the work shall be furnished in the manner and form satisfactory to the Village.
