The Coastal Palmetto Bay and Cutler Bay Habitat Restoration Project.

Presented by Sarah Martin

March 12, 2015 @ 6pm **RSVP Deadline: March 10, 2015**

The Cutler Bay and Palmetto Bay Habitat Restoration Project is a project funded through the U.S. Fish and Wildlife Service North American Wetlands Conservation Act's U.S. Small Grant, and aims to restore more than 390 acres of what is historically coastal prairie, marsh, pine Rockland and Rockland hammock for migratory birds as well as other native plants and animals. Come learn about the habitat, partnerships, and the goals and achievements of this project.

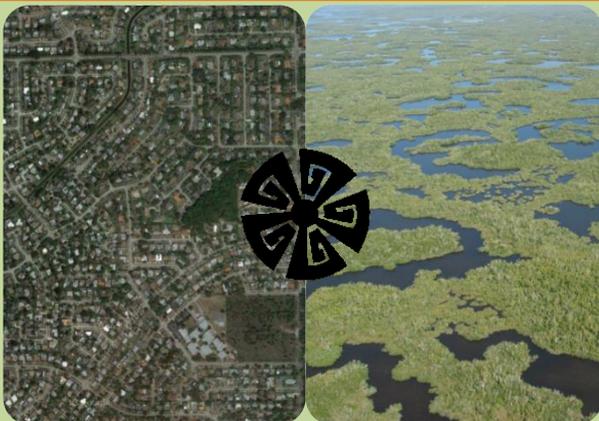

Restoring the Link between People & Nature.

Presented by Dr. Craig van der Heiden

April 9, 2015 @ 6pm **RSVP Deadline:**

April 6, 2015

It is the belief of IRC that people can work with nature to restore ecosystems and create strong sense of place. They believe our future depends on it! Come learn a little bit about how they do this and how you can help.

Natives for Your Neighborhood.

Presented by Lindsey Roland Nieratka

May 21, 2015 @ 6pm **RSVP Deadline:**

May 18, 2015

NFYN is changing a backyard hobby into a powerful conservation tool for South Florida. This workshop will include an introduction to native landscaping, benefits to homeowners, benefits to South Florida ecosystems, how to get started, and where to buy plants.
