

The Village of Palmetto Bay Policing Unit Residential/Business Security Survey

A Residential/Business Security Survey is a critical examination of the property to determine what the present security status is, identify any deficiencies, determine the level of protection needed, and make recommendations to improve the overall security of the premises. Areas that are inspected include doors, windows, lighting, landscaping, and any other areas of concern the property owner may have.

The Village of Palmetto Bay's Policing Unit provides a trained Crime Prevention Specialist to conduct a security survey of your home or business.

This service is offered to the residents of Palmetto Bay at no cost and all surveys are confidential. The survey usually takes approximately one hour. The residence/business owner will be provided with a written report containing everything that was discussed during the survey.

If you are interested in having your residence or business surveyed or would like further information about the program, contact Officer Peter Judge of the Community Outreach Unit at (305) 278-4018 or e-mail pjudge@mdpd.com, to schedule an appointment.
