As part of the FY'07/'08 budgeting process, it was determined that the Code Compliance Division would no longer be outsourced to CAP Government & M.T. Causley. The contract for outsourcing these services expires on December 31<sup>st</sup>, 2007. The Code Compliance Division was established as a result of the adoption of this fiscal year's budget. The Code Compliance Division includes (3) full-time positions:

- Administrative Aide
- Code Compliance Officers (2)

The job responsibilities of the (2) Code Officers require a vehicle to carry out their inspection duties throughout the Village.

While the Florida Sheriffs Association, Florida Association of Counties and Florida Fire Chiefs' Association have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.
